

## PART 2: CLASSIC SMOKEY EYES

The most classical and favorite make-up look is definitely smokey eyes. Always up-to-date and in-style. With smokey eyes the dramatic appearance is ensured. A classical combining black, grey and white to create most intensive contrasts.

### STEP 1 EYE- & LIPBASE

The eyes are the most important part for the smokey eyes look. First apply the **Eye- & Lip-base** very thinly to the eyelids and lips to ensure a long lasting result for the eye-shadow and lip product.

### STEP 2 METALLIC EYELINER GORGEOUS GREY

Now take the **Metallic Eyeliner Gorgeous Grey** and draw a bold line above the upper lash line. As it will be blended with black eyeshadow later on it doesn't need to be very precise. In addition, apply the eyeliner on the "waterline" at the lower eyelid.

### STEP 3 ARTISTIC QUATTRO EYESHADOW NIGHT ROCK

For the next step use the **Artistic Quattro Eyeshadow Night Rock** and apply the bright eyeshadow colour directly under the eyebrows and blend it a little. Using the stone grey colour, shade the eyelid crease and the lower eyelid below the lash line.

### STEP 4 + 5 METALLIC EYELINER MOONLIGHT SILVER & LASH BOOSTER

Apply the silver-grey eyeshadow in a curve above the colour that have already applied. With the black eyeshadow cover over the eyeliner on the upper lash line using the applicator. After that gently blend both together moving in the direction of the movable eyelid.

Following that take the **Metallic Eyeliner Moonlight Silver** and apply it to the inner corner of the eye and blend it using the practical sponge at the end of the eyeliner. For specially dramatic eyelashes use the **Lash Booster** for the upper and lower lash line before applying the mascara.

### STEP 5 FANTASTIC MASCARA

After that take the **Fantastic Mascara** and apply it by starting at the lash roots and drawing the brush slowly through the lashes. For best results, do this with zig-zag movements. You can apply the mascara a second time if you want the look to be even more intense.

### STEP 7 PERFECT BROWSTYLER DARK LIQUID

Now form the eyebrows with the **Perfect Browstyler Bright Liquid** and highlight them.

### STEP 8 + 9 BRILLIANT LIPGLOSS ROSE TEMPTATION + PERFECT POWER BLUSH RUDDY ROSE

The discreet **Brilliant Lipgloss Rose Temptation** is applied from the outside of the lip to the inside. Finally use **Perfect Powder Blush Ruddy Rose** and the LR by Da Vinci rouge brush to highlight the face. I use the brush to blend the two rouge tones together and apply them to the cheekbones.
